

---

## Skills

---

- Well versed with cell culturing techniques, cell viability assays, DNA/RNA Isolation
- Expertise in biological methods such as Native-PAGE and SDS-PAGE, PCR, Immunoprecipitation
- Hands-on practice in Flow cytometry and ELISA
- Animal handling, Drug injection via IP, PO, retro orbital route., tissue harvesting, in vivo/ in vitro tissue experiments
- Efficiently compiling scientific data

---

## Professional Experience

---

**Senior Research technician, Chemical biology department**

Memorial Sloan-Kettering Cancer Center, NY

Oct 2013- Present

- Assisting Post-doctoral scholars in investigating nature of chronic stress in cancer and neurodegenerative disease like Alzheimer
- Performing biochemical tests, tissue culture-based analyses, ex vivo analyses and immunohistochemical staining of specimens
- Overseeing the maintenance of mouse colony, breeders, genotyping, drug administrating and tissue harvesting on mice
- Involved in proper operation of the laboratory, such as contacting vendors and instrument maintenance engineers, maintaining laboratory cell-line bank, preparing buffers and reagents and keeping an up-to-date inventory of chemicals and reagents

**Research Student, Long Island University, New York**

Jan 2012 – May 2013

- Project was aimed to evaluate “Antiproliferative effect of selected antidepressant agents on human metastatic breast cancer cell-line, MCF-7”
- Established IC<sub>50</sub> values of antidepressant drugs using XTT, a cell viability assay; Confirmed cell death occur via apoptosis by cell morphology, cleaved PARP levels, and Propidium iodide staining
- Evaluated antiproliferative effect of these agents with combination of chemotherapeutic drugs

**Research Student, Gujarat University, India**

Sep 2008 – April 2009

- Generated Dose response curve of cholinergic (Acetylcholine) and adrenergic (Adrenaline) drug using normal and cystitic rat bladder and human detrusor muscle to characterize receptor status in experimental model of cystitis
- Epidemiological survey of patients having lower urinary tract infections and effectiveness of various interventions in interstitial cystitis patients and analysis of epidemiological data

## Education

---

- **Master of Science: Pharmacology and Toxicology**  
Long Island University, Brooklyn, New York Sep 2010 to Sep 2013
  - **Master of Pharmacy: Pharmacology and Toxicology**  
Gujarat University, Gujarat, India July 2007 to July 2009
  - **Bachelor of Pharmacy**  
Gujarat University, Gujarat, India Jun 2003 to May 2007
-
