

The image displays a collection of binary patterns, likely representing data in a visual format. The patterns are composed of vertical columns of black squares of varying widths, set against a white background. The patterns are organized into several horizontal rows. Some rows contain a single column of squares, while others contain multiple columns. The widths of the squares within each column vary, creating a digital representation of binary information. The overall appearance is that of a binary code or data visualization.

[REDACTED] , [REDACTED]

A horizontal row of ten dark gray squares of equal size, followed by a single thin vertical bar on the right side.

[REDACTED]

A horizontal sequence of 15 black squares followed by a question mark.

A horizontal row of 20 dark gray squares, likely representing a sequence of data or a visual representation of a dataset.

A horizontal sequence of 24 dark gray squares, divided into four groups of six by a vertical white line.

A horizontal row of 20 dark gray squares, representing a sequence of 20 data points.

A horizontal bar consisting of seven dark gray squares of equal width, followed by a single vertical dark gray line.

A horizontal row of 20 dark gray squares, representing a sequence of data points or a signal.

A horizontal row of 20 dark gray squares, likely representing a grayscale image or a series of data points.

A horizontal sequence of 24 dark gray squares, with a vertical line separating the first 12 from the second 12.

A horizontal row of 20 dark gray squares, likely representing a grayscale image or a series of data points.

A horizontal bar composed of 24 dark gray squares arranged in a single row. The bar is divided into three distinct sections by a vertical white line positioned in the middle. Each section contains 8 squares. The first section has 8 squares, the second section has 8 squares, and the third section has 8 squares.

A horizontal row of 20 dark gray squares, likely representing a sequence of data or a visual element in a user interface.

A horizontal sequence of 24 dark gray squares arranged in a single row. The first two squares are separated by a small white space, while the remaining 22 squares are grouped into four sets of six squares each.

A horizontal row of 20 solid black squares, organized into five distinct groups of four squares each. The groups are separated by small gaps.

A horizontal sequence of seven solid black squares, followed by a single black square containing a white question mark.

A horizontal scale consisting of two rows of squares. The top row has 10 squares, labeled '1' and '3' with ellipses between them. The bottom row has 10 squares, labeled '5' with ellipses on both sides.

A horizontal bar chart showing two data points. The first point is at index 20, represented by a black bar with a value of 1. The second point is at index 6, represented by a black bar with a value of 1. The bars are part of a larger sequence of 20 bars.

A horizontal row of 12 dark gray squares of equal size, followed by a single vertical dark gray bar of equal height.

    - 

A decorative horizontal separator at the bottom of the page, featuring three rows of black squares arranged in a grid pattern.

A horizontal sequence of black squares. The first 18 squares are grouped into four sets of three, separated by thin white gaps. This is followed by a single square, then a question mark, another square, and finally a slash character.

4

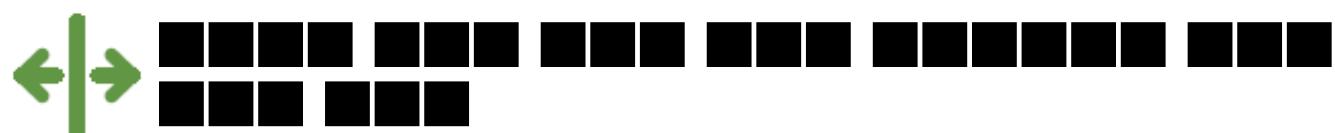

A horizontal bar composed of ten dark gray rectangular blocks of equal width, followed by a single vertical dark gray line.

The image consists of five horizontal rows of dark gray squares. Each row contains 16 squares, except for the bottom row which has 15 squares. The first four rows are full, while the bottom row is partially cut off on the right side. This visual representation suggests a sequence of binary digits (0s and 1s) or a digital signal. The squares are arranged in a grid pattern, with each square being a small, uniform rectangle.

A horizontal sequence of black squares. The first 24 squares are solid black. The next square is also solid black, followed by a question mark. This is followed by a sequence of 12 dark gray squares, which are enclosed in parentheses.

A horizontal sequence of 24 dark gray squares arranged in three rows. The top row has 18 squares, the middle row has 10 squares, and the bottom row has 10 squares. A vertical white line is positioned between the middle and bottom rows.

[www.epa.gov/privatewells/potential-well-water-contaminants-and-their-impacts](http://www.epa.gov/privatewells/potential-well-water-contaminants-and-their-impacts) |

A horizontal row of 20 black squares, each representing a binary digit (bit). The sequence starts with a series of ones, followed by a series of zeros, then another series of ones, and finally a series of zeros.

A horizontal sequence of twelve solid black squares, followed by a single question mark character.

A horizontal row of 20 dark gray squares, representing a 1x20 grid.

A horizontal bar consisting of 20 dark gray squares of equal width, followed by a single vertical white line.

A horizontal sequence of 15 dark gray squares, followed by a vertical ellipsis (three dots) indicating continuation.

A horizontal row of 16 dark gray squares, likely representing a grayscale image or a sequence of frames.

A horizontal row of 24 dark gray squares, likely representing a grayscale image or a sequence of frames.

**Figure 1.** A schematic diagram of the experimental setup. The light source (laser) emits a beam of light that passes through a lens and a beam splitter. The beam splitter splits the light into two paths: one path goes through a polarizer and a lens, and the other path goes through a lens and a polarizer. The two paths converge at a point where they are imaged by a camera.

If you have questions or concerns, contact your healthcare provider. A member of your care team will answer Monday through Friday from 9 a.m. to 5 p.m. Outside those hours, you can leave a message or talk with another MSK provider. There is always a doctor or nurse on call. If you're not sure how to reach your healthcare provider, call 212-639-2000.
