Memorial Sloan Kettering Cancer Center, in collaboration with Weill Cornell Medicine and Rockefeller University, present this 10-week research experience on their NYC campuses

Computational Biology Summer Program (CBSP)
June 2 – August 8, 2025

Applications are invited from computer science & applied math sophomores, juniors, and seniors interested in pursuing research at the interface of computer science and biomedicine for a summer research experience. Applicants must have computer science experience and fluency.

Participants will:

- Adapt their computer science skills to answer biomedically-focused research questions in cutting-edge laboratories at Memorial Sloan Kettering Cancer Center, Weill Cornell Medicine and Rockefeller University.

- Interact with faculty, postdoctoral fellows, and graduate students.

- Attend weekly seminar series of presentations by faculty.

- Attend professional development workshops.

- Present a poster at the end of the program.

- Receive a stipend of $6,500 for the summer. Housing available.

We strongly encourage students from groups historically underrepresented in science (disadvantaged, disabled, Black, Hispanic/LatinX, Native American) to apply.

For more information, see a full description of the program at: **msk.org/cbsp-summer**

Starting November 1, 2024 students can complete and submit an online application at: **sam.msk.org**

Deadline for receipt of applications: February 3, 2025
